SKILLS

• Frontend: React.js, HTML, CSS, JavaScript, Vite, Tailwind CSS

• Backend: Node.js, Express.js, PHP

• Database: MongoDB, MySQL

• Authentication & APIs: JWT, RESTful APIs

• Tools & Others: Git, GitHub, Postman, Recharts

EDUCATION

State University of Northern Negros (SUNN)

Bachelor of Science in Information Technology
2023 – Present

Currently in 2nd year, actively building projects using the MERN stack and modern web development tools.

ABOUT ME

Passionate full-stack developer skilled in React.js, Express.js, MongoDB, and Node.js. I build clean, responsive web apps and enjoy creating user-friendly, efficient solutions.

EXPERIENCE

Junior Web Developer

Self-Initiated Projects — 2023–2024

1st Year College

- Developed multiple simple frontend and full-stack websites using PHP, HTML, CSS, and JavaScript.
- Gained hands-on experience in web development fundamentals, including form handling, database integration (MySQL), and basic CRUD operations.
- Practiced responsive design and improved UI/UX skills through continuous iteration and personal projects

Full-Stack Developer (MERN Stack)

Self-Initiated Projects — 2024–2025

2nd Year College

- Built full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Implemented user authentication with JWT and created RESTful APIs for dynamic data handling.
- Focused on responsive design, state management with React Context, and real-time UI updates.
- Explored modern tools like Vite, Tailwind CSS, and Recharts for optimized performance and UI/UX.
